Sorbents

Today's workplace safety culture demands sorbents of varying absorbency ranges, sizes, and life spans. Choose from a full line—to handle drips, spills or puddling of water-, chemical- or petroleum- based flows. You'll find sorbents on roll, pad or sheet form, sorbents that conform to uneven surfaces, and sorbents of differing strengths for handling foot traffic to industrial vehicles.

Food Storage Containers & Lids

Food storage containers keep prepared foods, fruits, condiments, veggies and ingredients within easy reach. Choose from a range of sizes and features; each type provides unique advantages. Round containers and lids stack and nest for storage. Or choose square, space-saving containers and lids. Features like graduated measurements and writable areas for dating and labeling add to their economy and utility, as well as snap-tight or locking lids which provide an airtight seal that helps prevent spoilage and leakage. Food lasts longer and so does your dollar with food storage containers.

AntiViral Tissue

Refill your KLEENEX® Desk Caddies with an unbeatable, germ-killing team. Gentle but tough KLEENEX® BOUTIQUE* Anti-Viral Facial Tissue kills over 99% of cold and flu viruses. And your hands do a lot of vital work—prevent the spread of germs with KLEENEX® Moisturizing Instant Hand Sanitizer; it contains aloe and vitamin E to help soften hands. To prevent the transfer of bacteria and viruses from your workplace and tools, use SCOTT® Disinfectant Wipes.

Compostable Hot Cups (See page 412)

Choosing biodegradable hot cups is the wise alternative to landfilling. Made from a completely renewable corn plastic, Polylactic Acid (PLA), compostable hot cups are a friend to the environment and contribute to sustainability. Also, don't forget to order compostable hot cup lids and recyclable hot cup sleeves. It IS easy be Green!

Duo Hand Sanitizer Refills See page 107

Dial® Foam Hand Sanitizer refill cartridges are the easy, hassle-free way to load and change out your Dial Professional® Duo dispensers. Dial hand sanitizers kill 99.99% of germs instantly; the formula is safe, gentle under repeated use and leaves skin soft, smooth and refreshed without stickiness. When ordering, choose Touch-Free or manual refills. Also, it's great to note that manual dispensers can easily be converted to Touch-Free and Touch-Free to manual, without tools!

Chemicals & Janitorial See page 222

The Swiffer® Wet Jet System's unique, all-in-one mopping system uses a specially-formulated solution that breaks up and cleans up tough messes, locking them into the Wet Jet pad—providing a remarkable clean every time.

Work Gloves See pages 280-286

From your lightest work projects to the toughest, make sure safety and hand protection are at the top of your list. We carry work gloves to fit every task, including general-, specialized- and multi-purpose, gloves with greater strength and abrasion resistance, premium gloves that minimize hand fatigue and gloves with longer cuffs to maximize wrist protection.

Gatorade® Sports Drinks See page 318

Gatorade® helps performance and cuts fatigue in the workplace by replenishing critical electrolytes lost in physical exertion and sweating. Available in five flavors, order Gatorade® in bottles, packs or convenient cans. Since 1966, Gatorade® has been helping athletes and teams

perform better by replenishing critical electrolytes lost in exercise and sweating. Be sure to include it on your list of must-have hydration/sports drinks.

Guest Checks See page 437

Handy prompts on the form, plus a lined back for beverages and wraparound cover to prevent write-through, make these guest checks the choice of restaurants and foodservice institutions for decades.

Coffee See page 459

Every morning at work is better with fresh Folger's® 100% Mountain Grown ground coffee or pre-measured Vacket® ready-to-brew coffee packs. Complete your coffee area with liquid or powdered creamers and a variety of sweeteners.

Cutlery See page 422

Choose from a selection of light-, medium- or heavy-duty plastic cutlery, from individual pieces, wrapped pieces, wrapped cutlery kits to SmartStock® dispensers for minimized cost and high performance. There is an ideal duty and style to fit every budget, event, theme or foodservice need.

Table Covers See page 436

Absorbent, spill-proof and durable table covers add style, flair and beauty to banquets and events. Choose from durable one-ply or two-layer in white or one of four other colors. Covers are available individually or as roll covers in embossed, plastic or paper.

Griddle Cleaner See page 65

Scotch-Brite™ Quick Clean Griddle Liquid Packets come in pre-measured portions for powerful, cost-effective cleaning. One packet loosens and lifts carbonized grease and food soil on contact, for easy removal. There are no strong chemical odors or irritating fumes, either. Scotch-Brite™ Quick Clean contains no caustic soda as found in other griddle cleaners, and it's safe to use on your food contact surfaces.

Ice Handling See page 403

An efficient ice handling system greatly decreases the risk of cross-contamination and slippage hazards wherever ice is dispensed. Ice scoop, holder, totes, lids and cart complete a ready-to-dispense solution that travels anywhere.

Energy Saver

Assuming your company operates on a 10% profit margin, for every extra dollar your company spends on energy costs, it needs to generate \$10.00 worth of revenue. Make sure this is factored into your annual budget, and plan for energy savings.

An optimal move is installation of controlled "smart" lighting, whereby rooms remain lit when activity is sensed, followed by a timed shutdown when no one is present.

Another way to save in electricity costs is to switch off fluorescent light banks when natural lighting (daylighting) is adequate in an unoccupied, open office area. In new or remodeled top floor offices, skylights with enhanced ability to maximize and focus outside light are huge cost savers, and add to safety in hallways and corner areas as well.

Koala Kare® Baby Changing Stations

Wherever a robust, durable Koala Kare® changing station is installed, diaper changes are easy and safe. The products are constructed of high-density molded polypropylene mounted on steel hinges and brackets, capable of supporting up to 200 pounds with minimal deflection! Inherent in the construction is antimicrobial protection, and the changing stations also contribute to LEED certification.

Saver

Doing a little bit of cleaning when spills or stains occur reduces the need for tougher cleansers. Most stains can be removed with water and a mild utility soap if they are treated quickly. Spills that are wiped up right away rarely need much cleanser at all to be cleaned. Save money and time in the long run with a little cleanup sooner, rather than later.

Tip - Choosing an air freshener

For living and working areas, light scents such as lavender are refreshing without overpowering the senses. For persistent odors, try a “clean” or “fresh” scent. Bathrooms and other areas of consistently strong malodors can benefit by room deodorizers or air fresheners with a little more “kick” to them. Try scents with hints of floral or cinnamon.

Many of today's air fresheners contain counteractants which eliminate odors, leaving a fresh scent. Sanitizers kill bacteria that can cause offensive odors. Timed air fresheners release pre-measured product into the air automatically.

Tip - Auto-Flush Systems

Your investment in a top-of-the-line auto-flush system will yield cost savings, increased equipment longevity and cleaner facilities. Installation of sensors and Auto-flushers typically takes an hour or less, installing over existing, manual flush hardware. Current technology provides that sensor batteries will not require replacement until 30,000 flushes or more. Additionally, auto-flushing eliminates the need for manual flushing, ensuring longer equipment life—since flush handles are often stepped on due to sanitary considerations. Finally, the more frequent use the lavatory facilities receive will benefit by greater cleanliness, inasmuch as auto-flushing occurs after every use of commodes and sinks.
