

Something truly unique in flying...

Whether you've never flown before or are already a pilot, you owe it to yourself to take the 10-Hour Test Drive. Here are just a few reasons:

The thrill of personal air travel in the style and comfort of the most luxurious automobile

Your own choice of airport destinations (or ours, if you'd like suggestions) under different scenarios and conditions. A total Introductory Flight Experience, not just a short, local hop

You'll be flying the safest, most advanced single-engine aircraft in all of General Aviation

Innovative purchase options: we make it easy to transition into ownership of a Cirrus aircraft

Cirrus Perspective's all-weather advanced *Synthetic Vision* allows you to 'see' the sky above and terrain below, regardless of sky conditions

Safety systems unparalleled in *any* other aircraft.

We're the ones who build the airplane with the parachute.

To shake hands with the new way of flying, you have to experience it! Take the Cirrus 10-Hour Test Drive.

It will change the way you think about flying forever.

Your dreams of flight will take wing

The best way to find out if flying is all that you've envisioned is to have a true, in-depth Flight Experience. Not just a local, one-hour flight in one of those "small airplanes," but a unique introduction to a new way to fly—in a high-performance, state-of-the-art aircraft. Come fly with us and take the Cirrus 10-Hour Test Drive!

There's nothing like the 10-Hour Test Drive in Aviation

For \$4995, you will embark on the experience of a lifetime in one of our advanced, fast, sleek, luxurious Cirrus aircraft with a professional flight instructor out of Addison Airport (ADS), TX. If you decide to purchase your own SR20, SR22, X-Edition or Turbo within 90 days of beginning your Test Drive, we will credit money toward your purchase.

In 10 hours, you will have a complete picture

When you sign up for the 10-Hour Test Drive, you'll discover:

- How your life and travel will be revolutionized
- The ease, comfort and safety of flying a Cirrus aircraft
- Flight in various weather and sky conditions
- Proper takeoff and landing techniques
- Effective radio communications
- The state of the art in air navigation and flight systems

We know you'll have many questions. And because Cirrus is all about pilots, we answer every one...and then some.

We put enjoyment back in the journey

Cirrus Flying 2.0 is an evolution in the aviation experience that takes the very essence of flight to its ultimate level. We combine professional training with airplanes built not just to accommodate pilot and passengers, but designed around them. Airplanes built for speed, comfort, safety, ease of flying, with luxurious appointments of the type usually found only in fine cars. Private flying made to order, by and for you.

TAKE THE CIRRUS TEST DRIVE

10-HOUR ULTIMATE HANDS-ON FLIGHT EXPERIENCE

Turn the dream into reality today

1. Call 866.386.0753 for your Cirrus Regional Sales Manager.
2. Fill out the 10-Hour Test Drive Certificate.
3. Give the certificate to your Cirrus Regional Sales Manager.
4. Set up Drive 1 of your 10-Hour Test Drive when you are contacted by PlaneSmart!Aviation, Addison Airport, Addison, TX.

And if you order or purchase a Cirrus aircraft within 90 days of starting your 10-Hour Test Drive, you will receive credit toward the purchase of your aircraft. Credit is equal to percentage of product purchased. Ex: ½ share amounts to ½ of 10-Hour Test Drive cost credited toward purchase; one full share amounts to full 10-Hour Test Drive cost credited toward purchase, etc.

Take the Cirrus Test Drive. In 10 flying hours, you will know for sure if Cirrus Flying 2.0 is for you!

DRIVE 1: Short destination flight (2 hours)

Fly from home to a destination you might visit, up to 200 miles away, have lunch. The full flight experience—including in-flight maneuvering (airwork).

DRIVE 2: Long destination flight (4 hours)

Fly to a business meeting or destination up to 400 miles away. Learn about weather and on-board technologies like autopilot, checklists, safety technologies, nav aids, GPS, instrument flying, and more. Bring a business partner or your spouse along to enjoy the experience with you.

DRIVE 3: Basic maneuvers (1.5 hours)

Get a feel for flight training. Join your pilot in pre-flight work and do basic maneuvers, from turns to slow flight and traffic patterns. Get hands-on experience to see what it's like to fly a single-engine aircraft.

DRIVE 4: Tailored lesson (2.5 hours)

You choose this lesson: It could be another longer trip or special training, such as takeoffs and landings, or radio communications.

Hourly costs are computed as follows:

\$180/hour dry lease to Cirrus Aviation for aircraft assumed

PlaneSmart!Aviation provides pilot at \$75/hour

PlaneSmart!Aviation provides fuel at \$100/hour

Overages will be pooled for additional Cirrus promotions (See Rules)

Cirrus Aircraft will pay all insurance and maintenance

Rules:

Your ten hours must be used within 30 days of signing up for **Ten Hour Test Drive**.

All costs are based on day trips. Additional costs assessed for overnights, etc.

Hourly fee for overages will be assessed. The intent is to get as close to ten hours as possible.

Qualified buyers only (with intent to purchase and within market area. Not intended for check-outs, recurrency, etc.)

Flight is Addison (ADS)-based. Dead legs will be charged.

Imagine the thrill...

You may have envisioned it a hundred times. Effortless, exhilarating flight. Flying for the pure pleasure of it...and for business, because you have important places to go and people to see.

You've flown the airlines, spent your money to wait in line, endured hours worth of delays to fly when the airline says so. But there's a better way—and it's a lot more fun!

"Maybe I can even learn to fly. Maybe I can own an airplane some day. How great would that be!"

Over and over you've wondered if it's really possible to fly—to be your own captain on your own terms. It *is* possible—and actionable! Read more...
