Jim King Builders, Inc. - Design Build Remodel

Hi...I'm Jim King and I just want to have a "kitchen table" conversation with you right now. That home of yours is on your short list as one of the most important things in your daily life, isn't it? As a builder of prestige-quality custom homes and resident dream-maker, I take your home as seriously as you do.

How do you know that? Well, whether it's a new home, a room remodel, basement remodel, outdoor living space, Restoration, plumbing or other construction services... what speaks more solidly of trust, dependability and craftsmanship? I would have to say it's relationship and reputation in one business package.

I help people just like you every single day. And those people know first-hand the difference that Jim King Builders makes. We're not just another builder. [Read a few testimonials and you'll be convinced yourself. Click here!](#)

What is the one thing you could change about your home right now, if you had a real pro who is also a friend and resident expert, to speak with? A room you want to totally transform? A deck or outdoor patio? A bricked-in poolside outdoor living space, or a beautiful wood porch? A total bath makeover? A beautiful new stairway? A brand new office? Remodeling of your kitchen? Adding a whirlpool, a stone heart fireplace... or a transformed basement?

I'd love to hear all about it... and brainstorm with you. But first, I want you to know my pledge to you and your project. I will put the best quality materials and workmanship into every square foot of your Jim King Builders project, but it won't cost you as much as other "quality, prestige, custom" builders will

Log onto: www.jimkingbuilders.com They are the premier home designer, builder and remodeler... hands down. Jim is in the greater Chicago area and DKC Marketing is proud to be his webmaster!
