

Dear {FirstName},

In just 2 days, I'm going to reveal a product that breaks through every money, emotional and intellectual barrier I know of— for control and money-making power in the stock market.

And we're talking about today's volatile, wild-ride market!

It's really a very simple product... unlike the high-falutin' and wallet-squeezing trading programs out there. This program quite frankly reveals the basics of proper trading.

Having made fortunes in trading over the course of my career, I've found that most of what's out there is just too much.

It costs an arm and a leg, contains way too many bells & whistles, it's way overblown and most of what you get with these programs is unnecessary.

The vast majority of investors do not have the time or inclination to put up with all of that over-the-top stuff. It's just destined to daze, confuse and frustrate.

That's no way to win in stock market trading. So when this Course came along, I just sat there, astounded.

You see, this is a product straight out of my coaching experience... yet, I've never seen anything like it before!

I am holding a copy of a manual. This will teach you EXACTLY how to trade your way to success in the stock market.

It's for busy people, and it's also

- clear
- easy to read
- easy to understand
- organized into successive steps
- simple to implement

In a sentence, it takes what I teach, and lays all the basics of successful trading out for you.

How do I know about successful stock market investing?  
And how do I know \*simple\* works so well?

I've been a massively successful trader for years and years.

My accomplishments and exploits have been written up in Fortune Magazine. And one other thing...

I teach what I know. As a matter of fact, my company is the top-rated stock market coaching service in the country.

I'm trusted and I'm effective. No brag, just fact. You need to know that the people who shoot that high really have a track record, right? I'm happy to say that my students learn how to beat the stock market and minimize the downside.

I absolutely love what I hear and read every day from our students. These folks are moving toward success every day!

Now it's your turn to learn from the pros. In 2 days, I will send you a free booklet containing actual excerpts from this amazing manual... and a video that shows you "how we do it."

It will be my gift to you. It's my belief that what's presented there will truly revolutionize how you think about and approach the stock market.

And your life.

You can start dreaming again. This will allow you to have a fresh, confident, take-control mindset with every single moneymaking opportunity. And there are literally thousands of them!

Has it been a long time since you first dreamed of profitable trades and a lifestyle that reflected control and confidence... instead of a frenetic, rat-race approach and lifestyle? Well, this new manual and the system I will reveal to you will change that. With what you learn here, you will have the ability to take a couple of thousand dollars or more in the next months—and begin turning them into a 6-figure sum.

This isn't about launching a bold, in-your-face, full frontal assault on the stock market. It's a cool, calm and collected way to run a very lucrative business.

You can custom-design the life you want if you can control your financial outlook. You will love how this makes you feel once your trades start turning profits. And I can't wait to tell you more!

So stay tuned, my friend... the best is yet to come!

Till then,

Adam
